

ENGINEERING AND MACHINING SERVICES

**Has the bearing you need been discontinued?
Is your customer experiencing bearing failure or broken housings?**

Moline Engineers are available to custom design or modify existing housings to resolve any design or operating issues you may encounter. We are available to help troubleshoot. Fast turnaround on small runs, along with low minimum quantities are our specialty.

- We offer specialty housing materials such as ductile iron or machined steel
- In many instances we can modify existing housings to suit a mounting issue or space consideration
- Moline's Engineering Department can reverse engineer discontinued mounted units
- Fast turnaround on small runs and low minimum quantities are our specialty
- We offer specialty seals and seal design solutions to suit a variety of application environments
- High-temp, Low-temp, Solid Lube, Food-Grade greases are available upon request
- Please call the factory for more information, pricing and availability

| Product | Customer Problem | Moline Solution/Benefit |
|--|--|--|
| Stainless Steel Piloted Flange with Solid Lubricant | Customer sought to eliminate potential corrosion and contamination in a food processing environment. | Moline provided the complete solution with this stainless steel housing, insert and collars to the engineers specifications. We further specified a solid lubricant to ensure containment. |
